ABOUT VITAMIN K2-D3 CAPSULE

Vitamin D3 enhances calcium absorption, while Vitamin K2 (MK-7) activates proteins that guide calcium to the bones and teeth and help prevent calcium deposition in arteries. Together, they work synergistically to support strong bones, a healthy heart, and a stronger immune system.

- ✓ Supports bone mineralization and bone strength
- ✓ Helps maintain calcium balance in the body
- ✓ Supports cardiovascular health by keeping arteries clean
- ✓ Supports immune function
- ✓ Promotes overall health and well-being

KEY BENEFITS

- Supports Bone Density & Bone Strength
- Directs Calcium to Bones & Teeth
- Supports Cardiovascular Health
- Improves Calcium Absorption & Utilization
- Supports Muscle Function
- Supports Immune System
- Supports Dental Health
- Helps Maintain Healthy Calcium Levels
- Supports Overall Health & Longevity
- Synergistic Formula for Maximum Benefits
